RAS Preliminary Examination

Previous Year Papers — 5-Year Theme-wise & Sub-topic Analysis

Papers analysed: 2016, 2018, 2021, 2023 & 2024 | 750 questions (150 each)

About this analysis

Every question from the last five RAS Prelims papers (2016, 2018, 2021, 2023 and 2024) was individually classified into one of eleven subject themes aligned to the RAS syllabus, then tagged with a detailed sub-topic. This document gives you (a) the overall theme-wise weightage and 5-year trend, (b) a sub-topic breakdown within each theme, and (c) the full question-by-question bifurcation.

Note: a few questions were dropped by RPSC in final keys (marked "-"). Question gists are short paraphrases for indexing, not verbatim text. Current-affairs questions are time-bound to each exam year, so their sub-topics naturally vary year to year.

A. Theme-wise weightage & 5-year trend

Theme	2016	2018	2021	2023	2024	Total	Avg/ yr

Key takeaways (5-year view)

- **Three themes anchor the paper:** Reasoning & Mental Ability (100), Current Affairs (99) and Science & Technology (97) — together ~40% of every paper, and the most reliable scoring zones.
- **Rajasthan is the heart of the GK content:** Rajasthan History/Culture (81), Geography of Rajasthan (67), Economy of Rajasthan (66) and Rajasthan Polity (61) — combined ~37% of the paper.
- Reasoning is fixed at exactly 20 every year — the single most predictable block across all five papers.
- **Geography of Rajasthan is volatile:** peaked at 21 (2021) but dropped to 9–14 in other years; don't assume a fixed count.
- **Pure national topics are lighter:** Indian History (47), Indian Economy (43) and World+India Geography (32) carry less weight than their Rajasthan counterparts.
- Science & Tech is front-loaded historically (22 in 2016 & 2018) and eased to 16–20 recently, but remains a top-3 theme.

B. Sub-topic breakdown by theme

For each theme: a sub-topic frequency table (questions per micro-topic across the five years), followed by the complete list of questions.
